EDUCATION

K. J. Somaiya Institute of Technology <i>Bachelor of Technology in Artificial Intelligence and Data Science</i>	Mumbai, India <i>Dec. 2021 – May 2025 (Expected)</i>
Jai Hind College <i>HSC(Higher Secondary Certificate)</i>	Mumbai, India <i>Aug. 2019 – Aug. 2021</i>
CHandaramji High School <i>SSC(Secondary School Certificate)</i>	Mumbai, India <i>June 2009 – May 2019</i>

INTERNSHIPS

Research Intern <i>Society for Data Science</i> • Conducting research on misinformation spread • Preparing research paper for publication in IEEE Tensymp • Collecting and analyzing large datasets, developing machine learning algorithms • Proposing strategies to mitigate misinformation	May 2023 – Present <i>Mumbai, India</i>
Azure, Java, and Web Development Internship <i>Claidroid Technologies Pvt Ltd</i> • Developed skills in Azure cloud platform, Java programming, and web development • Successfully deployed web applications using Azure services	Dec. 2022 – Jan. 2023 <i>Mumbai, India</i>
Data Science & Machine Learning Internship <i>YBI Foundation</i> • Gained hands-on experience in data science and machine learning techniques • Completed projects and achieved certification	July 2023 <i>Remote</i>

PROJECTS

Chat with Website • Developed a chatbot that integrates with a website to provide user support and engagement.
Chat with PDF • Created a chatbot that extracts information from PDF documents and engages in conversation with users.
Blog Generation • Built a system that generates blog posts using natural language processing and machine learning algorithms.
ATS System • Developed an Application Tracking System (ATS) that streamlines the recruitment process using AI and machine learning.
Image Caption • Created a system that generates captions for images using computer vision and natural language processing.
Object Recognition • Built a system that recognizes objects in images using computer vision and machine learning algorithms.
Image Colorizer • Developed a system that colorizes black and white images using computer vision and machine learning algorithms.
Chatbot for College Admission System • Created a chatbot that assists students with college admissions and provides support throughout the process.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java

Cloud Computing: Google Cloud Platform (GCP), Amazon Web Services (AWS), Microsoft Azure, Oracle Cloud, IBM Cloud

Data Science and ML Tools: TensorFlow, Keras, Scikit-Learn, NumPy, Pandas

Web Development: HTML, CSS, JavaScript, Flask, Django

Databases: Firebase, MongoDB, MySQL, SQLite, PostgreSQL

Version Control: Git

Data Visualization: Matplotlib, Seaborn, Power BI

DevOps: Docker, Kubernetes, GitHub, Nginx

Computer Vision: Image Classification, Object Detection, Segmentation, GANs

NLP: Text Classification, Sentiment Analysis, Named Entity Recognition, Part-of-Speech Tagging

CERTIFICATIONS

- Introduction to Web Development
- Generative AI with Large Language Models
- Version Control
- Machine Learning Specialization
- Tata Group - Data Visualization: Empowering Business with Effective Insights Job Simulation
