EDUCATION

K. J. Somaiya Institute of Technology

Bachelor of Technology in Artificial Intelligence and Data Science

Mumbai, India

Dec. 2021 – May 2025 (Expected)

- CGPA: 8.2 / 10.0

Jai Hind College

H. Sc. (Higher Secondary Certificate)

Mumbai, India

Aug. 2019 – Aug. 2021

Chandaramji High School

S. Sc. (Secondary School Certificate)

Mumbai, India

June 2009 – May 2019

PUBLICATIONS

Towards Mitigating Misinformation: A Structured Dataset of Fact-Checked Claims from News Media

IEEE Conference Publication | IEEE Xplore

- Co-authored research paper focusing on the creation of a structured dataset to counter misinformation, accepted for publication in an IEEE conference.

INTERNSHIPS

Web Developer Intern

IASCC

Remote

June 2025 – Present

- Designed and developed IASCC's main website from the ground up, delivering a responsive, accessible, and intuitive user interface.
- Built and integrated a custom Content Management System (CMS) to manage and publish dynamic content including blogs, newsletters, articles, and research publications.
- Maintain and enhance the website's frontend, focusing on performance optimization, UI/UX improvements, and seamless content updates.

Research Intern

Society for Data Science

Mumbai, India

May 2023 – May 2025

- Conducted research on the spread of misinformation using advanced machine learning techniques.
- Analyzed text datasets of over 21,000 news articles to uncover patterns and indicators of fake news.
- Developed and evaluated models (ColBERT, SVM) for misinformation detection, optimizing performance using metrics such as Matthew's Correlation Coefficient.
- Contributed to an IEEE conference paper accepted for publication.

Software Development Intern

YANISA EXECUTION Pvt Ltd

Mumbai, India

Sep 2023 – Dec 2023

- Built scalable web apps and developed a no-code CRM to streamline client management.
- Collaborated with teams to deliver key features and optimize performance.
- Assisted in designing intuitive user interfaces to enhance overall user experience.

Data Science & ML Intern

Ybi Foundation

Remote

July 2023

- Developed predictive machine learning models using Python, TensorFlow, and PyTorch.
- Implemented robust data preprocessing pipelines to handle large-scale datasets efficiently.
- Worked on real-world analytics problems, applying regression and classification techniques.

Azure, Java, and Web Development Intern

Claidroid Technologies Pvt Ltd

Mumbai, India

Dec 2022 – Jan 2023

- Gained hands-on experience with Azure cloud services, Java programming, and modern web development.
- Built and deployed a library management web application using Azure App Services and Azure SQL Database.
- Applied core software engineering principles in the development of enterprise-grade solutions.

PROJECTS

FastWrite (PyPI Package - 6k+ Downloads in First Month!)

- Published Python module for AI-assisted documentation generation, available on PyPI. [\[PyPI\]](#) [\[GitHub\]](#)

OSFM-Net (Contribution)

- Extension of OSFM allowing network-wide firmware management via a client-server model. [\[GitHub\]](#)
- Co-developed the OSFM-Net extension, contributing to both client-side and server-side implementation for network-wide firmware management.

ATS System

- Streamlit app functioning as an ATS resume scanner, leveraging Google’s Gemini AI to evaluate resumes against job descriptions. [\[GitHub\]](#) [\[Demo\]](#)

VerifiNews

- React-based web app to detect misinformation by analyzing text, images, audio, and video using DuckDuckGo search and Gemini LLM. [\[GitHub\]](#)

AI Research Agent

- Developed an autonomous AI agent using CrewAI to perform automated literature reviews, synthesize findings, and generate research summaries. [\[GitHub\]](#)

Chat with PDF

- Interactive PDF chat application using Gemini, Langchain, and Streamlit for document querying and retrieval. [\[GitHub\]](#) [\[Demo\]](#)

Chat with Website

- Streamlit-based chatbot using RAG (ChatGroq LLM) to extract, embed, and query website content via conversational AI. [\[GitHub\]](#) [\[Demo\]](#)

AWARDS AND RECOGNITION

2nd Prize, Poster Presentation - AI ROBOFEST, KJSIT - 2025

2nd Prize, Vision Board - ISF CONGRESS 2025, SAKEC - 2025

EXTRACURRICULAR ACTIVITIES & LEADERSHIP

Society for Data Science (S4DS)

KJSIT, Mumbai

Knowhow AI/ML Lead & Joint Tech Lead

July 2024 – May 2025

- Managed technical aspects of a 36-hour offline hackathon at KJSIT, Mumbai, including team shortlisting, website/portal design, leaderboard management, and on-site technical support.
- Conducted 3-4 sessions/workshops on AI/ML concepts for junior students.
- Mentored 10+ junior students in developing their AI/ML projects.
- Provided ad-hoc technical guidance and mentorship to junior members.

IEEE Student Branch

KJSIT, Mumbai

Joint Chief Technical Officer (Jt. CTO)

July 2024 – May 2025

- Coordinated technical logistics for a 24-hour offline branch hackathon at KJSIT, Mumbai, covering team selection, website/judging tools development, leaderboard implementation, and event-day technical troubleshooting.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, C, TypeScript, JavaScript

GenAI Tools Frameworks: Langchain, LlamaIndex, CrewAI, Hugging Face Transformers, OpenAI API, Gemini API, ChatGroq, RAG, Autonomous Agents

Data Science ML: TensorFlow, Keras, PyTorch, Scikit-Learn, Pandas, NumPy, ColBERT, SVM

Cloud Computing: Google Cloud Platform (GCP), Amazon Web Services (AWS), Microsoft Azure (App Service, SQL Database)

Web Development: Flask, Django, Streamlit, React, HTML, CSS

Databases: Firebase, MongoDB, MySQL, PostgreSQL, SQLite

DevOps Tools: Docker, Git, GitHub, Nginx

Data Visualization: Matplotlib, Seaborn, Power BI

Computer Vision: Image Classification, Object Detection, Segmentation, GANs, OpenCV

NLP: Text Classification, Sentiment Analysis, NER, POS Tagging, Embeddings, Document AI

Other: Client-Server Architecture, Networking Concepts, Performance Optimization

CERTIFICATIONS

- Machine Learning Specialization (Coursera / Stanford)
- Deep Learning Specialization (Coursera / deeplearning.ai)
- Natural Language Processing Specialization (Coursera / deeplearning.ai)
- Generative AI with Large Language Models (Coursera / AWS)
- Introduction to Web Development (Coursera / Meta)
- Version Control (Coursera / Meta)
